

## Hydroflow Light Duty Manhole Cover

### Description

Engineered for durability and ease of use, this light duty manhole cover is manufactured from ductile iron, offering a strong yet lightweight solution. Wide lifting eyes provide easy handling and safe access, while the increased void space within the lid accommodates a variety of lifting tools for added versatility. Finished with a black protective coating for enhanced corrosion resistance, it is designed to deliver reliable performance across a range of applications.

### Benefits

---

Made with ductile iron

---

Lightweight solution to cater multiple tool styles

---

Low maintenance; Ideal for different installations

---

Wide lifting eyes for ease of access

---

Black coating finish for corrosion resistance

---
